

Monson training hats

We recommend that all swimmers wear a Monson hat for training and for galas and competitions. These are the regular Monson hats with the logo

These can be ordered via the website [Swimming Hat Order Form | Cognito Forms](#)

Orders for hats will be billed to parents directly.

County, regional, and national competition hats

For country, regional, and national competition, the club will organise and order hats with the name of the swimmer on the hat in addition to the logo and the name of the event. The hats will cost more than the ones without the names, and parents will be advised of the additional cost at the time of ordering. Parents will be billed directly for any orders made.

For all events, all swimmers who have automatic entry times will be able to order hats, that state the name of the event and the name of the swimmer.

The club will also buy some hats which state the name of the event, but not the name for those who have consideration times and who may be accepted for the competition. For those with consideration times hats will state the event, such as Kent Qualifier or South East Regional Qualifier. By the time entries for some events are accepted, it is too late to put in a hat order, so the swimmers will have a hat stating the event, and if they would like a hat with their name on, this can be ordered separately as a keepsake and to wear after the event. Post event orders may take place when ordering hats for the next competition hat order.

All hat orders will be approved by the Head Coach/Deputy Head Coach before orders are submitted

Parents will be responsible for paying for all hats orders.
